U.S. DEPARTMENT OF
HOUSING AND URBAN DEVELOPMENT

Memorandum

TO : Sub-Group Chairmen and/or Members of
US Delegation to USSR

DATE: 4 DEC 1973

IN REPLY REFER TO:

FROM : Stanley E. Smigel
Office of International Affairs

SUBJECT: US/USSR Environment Agreement: Minutes of
Joint US/USSR Urban Environment Working Group
Meeting in Moscow, November 19-30

REF : My memorandum of November 28 re the debriefing
of the US Delegation

Attached for your information and perusal, prior to the December 12 debriefing, is a copy of the English version of the minutes of the recent meeting in Moscow. (A Russian version is available if you wish a copy.) Mr. Moskow is sending a copy of the minutes (in both languages) to Mr. Train, Chairman of the Joint US/USSR Committee on the Protection of the Environment.

Please note in particular that the Joint Working Group agreed to meet next in the US in October 1974, and that a program for 1974 was also agreed to, essentially along the lines of the agreement reached on November 16 during the meeting in Washington of the US/USSR Joint Committee.

Following the scheduled debriefing of the US delegation on December 12 and the submission and dissemination of the delegation's report, we will arrange for a Working Group meeting in January to spell out the procedures for implementing the 1974 program.

Stanley E. Smigel
Acting Director

Environment

MINUTES OF THE MEETING OF THE JOINT US-USSR
WORKING GROUP ON THE ENHANCEMENT OF THE
URBAN ENVIRONMENT

The second meeting of the Joint US-USSR Working Group on the Enhancement of the Urban Environment was held in the USSR, from November 19-30, 1973 in conformity with the memorandum implementing the 1972 US-USSR Agreement on Cooperation in the field of Environmental Protection.

The American and Soviet experts (a list of participants is attached as Tab.A) exchanged information on methods of assuring a desirable environment in urban areas with particular attention to comprehensive planning and development, the planning and development of new communities, historic preservation and parks, the impact of transportation on the environment, noise abatement, solid waste management, and construction in permafrost terrain.

The US experts also visited Leningrad, Tashkent, Samarkand, and the new community of Tolyatti where they examined Soviet efforts to improve the urban environment.

It was agreed that the next meeting of the Joint Working Group would be held in the United States in October 1974.

Recognizing the need for further exchanges of technical information on enhancing the urban environment, both sides agreed to the designation of Soviet as well as American experts in each of the above subjects as members of the Joint Working Group and to the initiation of an exchange of documentation which will take into account the problems of attaching short summary translations. The US and Soviet Working Group Chairmen will be kept informed of all such activities.

As a result of the meeting, both sides agreed to a concrete program of cooperation for 1974 and established approximate dates of experts' visits to each country (Tab.2). Recognizing also that effective cooperation will require additional exchanges of information in the interim period between meetings of the Joint Group, both sides agreed that visits of experts or technical teams, participation in symposia, etc. may be arranged by mutual consent of the Working Group Chairmen. It is understood that each side will bear its own travel expenses and related costs. However,

2.

other financial arrangements may be utilized upon mutual agreement of the parties.

The two sides believe that the second joint meeting of the US-USSR Working Group has afforded valuable opportunities for continuing rewarding contacts between US and USSR specialists concerned with the urban environment,

Both sides will undertake to work out a long-term program for exchanges of information. They agreed to inform the Co-Chairmen of the US-USSR Joint Commission on Cooperation in the field of Environmental Protection of the substance and form of all cooperative projects to be carried out by the Joint Working Group.

Signed in Moscow, November 30, 1973 in English and Russian, both texts being equally authentic.

Dr. Michael H. Moskow,
Assistant Secretary for Policy
Development and Research,
Department of Housing and
Urban Development,
Washington, D.C., USA

Aleksei O. Kudryavtsev,
Chief Department of Urban
Planning,
State Committee for Civil
Construction & Architecture,
Moscow, USSR.
